

MEC: YOUR PARTNER IN MEDICARE SET-ASIDE (MSA) OPTIMIZATION

Simplifying the MSA Process and Delivering Hidden Value with Our Pre-MSA and MSA Services

The intricacies of Medicare Set-Asides (MSAs) and the constantly evolving Medicare requirements can be a significant burden for those handling workers compensation settlements. Unexpected surprises in the MSA process, such as higher-than-anticipated MSA amounts, can derail settlement negotiations and lead to frustrating delays. Furthermore, many professionals responsible for navigating this complex process lack the specialized expertise needed to identify and capitalize on potential savings opportunities, resulting in unnecessary costs.

At MEC, we've developed a unique approach to help you optimize your MSAs and protect your bottom line. Our Pre-MSA service proactively identifies Medicare exposure and uncovers savings opportunities early in the settlement process, positioning claims for successful resolution.

What is an MSA?

An MSA allocates a portion of a settlement to cover future medical expenses. The purpose of an MSA is to protect Medicare's interests and ensure that Medicare doesn't pay for treatment that should be covered by the settlement.

MEC's Comprehensive MSA Services

1. **Pre-MSA Service:** Our innovative Pre-MSA service goes beyond standard MSA offerings. Our experts work with you early in the settlement process to identify Medicare exposure and uncover mitigation opportunities. This analysis helps you understand potential obligations, minimize MSA allocation, and avoid delays and costly mistakes. Best of all, our Pre-MSA services are provided free of charge.
2. **MSA Review Service:** Our MSA certified Medical Management Consultants and Attorneys review vendor-prepared MSAs to ensure accuracy, compliance with Medicare protocols, and consistency with medical records. We identify opportunities for mitigation, depict medical treatment and medication utilization commonly accepted by Medicare, and can complete reviews on expired MSA reports.
